Mana 6 / 6 Soul burned: 0 XP earned: 0 XP spent: 0

o o o o o o o o o o o o o o o o o o o o

20 tracking circles; start with 6 Mana. Mark or cross out spent points. No current injuries or conditions.

Weapons

Name / type	Hit	Damage	Special rules
Glock (Banisher) 9mm	+1	1 Kinetic + Piercing	Light; one-handed; Concealable; Small rounds.

Armor

Armor	Max / current	Notes
Cloth + 2 Protection Runes	3 / 3	Base 1 + two runes, +1 each; 6 rune slots.

Equipment

Item	Uses / effect
Black Tower Laptop	Loaded rituals: Bless Weapon, Protect Object, Inspiration Hymn. Laptop access: +2 difficulty steps, twice the casting time. After 1 hour connected to the database, swap the rituals.
Stone with Memory-Manipulating Rune	Show the rune to other humans: they lose their memory of the last 30 minutes.
Injector Pen with Healing Salve	One use: heal 1d6 non-critical physical attribute damage.
Tarot Deck	Spend 1 Mana and 10 minutes to ask the GM one question. The answer must be true but may be cryptic.

Class equipment is included at no cost. Spare equipment points: 0. Agree carrying-slot accounting with the GM; this sheet does not silently remove class gear.

Abilities & powers

Emilia Olsson | Mage

Magical Ritual

Intelligence + Occult; matching Magic specialization

Allows rituals from the Magic section. Emilia's normal pool is (5 + 2) x 2 = 14d6 for relevant Magic rolls. Rituals take time and can be interrupted. They cannot directly affect greater Eldritch powers or cosmic horrors, but may affect servants or infested areas. Cannot be combined with Nanomancy.

Water Jet

3 Mana with Creator; Magical Ritual roll

Normal cost 2 Mana, increased by Creator to 3. Fire a high-pressure water jet: 1 Water damage for the first 6; each extra 6 doubles the damage.

Creator

Creation specialization; passive modifiers

Creation Magic costs 1 less Mana (minimum 1). Healing and Combat Spells cost 1 extra Mana. Cannot also select Healer or Destroyer. Once per scene, Genesis can avoid its superficial damage cost, but Emilia has not learned Genesis yet.

Black Tower Laptop: loaded rituals

Bless Weapon (laptop ritual)

1 Mana; 20 min; +2 difficulty steps. Weapon gains an extra damage type for one scene: Bludgeoning, Slashing, Piercing, Fire, Water, Air, Electricity or Earth.

Protect Object (laptop ritual)

1 Mana; 20 min; +2 difficulty steps. Object gains +1 armor against a chosen damage type, excluding Void. The entry does not specify duration; agree with the GM.

Inspiration Hymn (laptop ritual)

1 Mana; 20 min; +2 difficulty steps. Allies gain +2 Social Interaction and +1 Athletics for one scene.

The laptop imposes +2 difficulty steps and doubles casting time (already shown above). An hour connected to its database lets you replace its three rituals.

Using your character

Creator is selected. Water Jet therefore costs 3 Mana, not its normal 2. Conjure Tool (125 XP) is a useful next purchase; Creator alone does not teach it. Genesis is also not yet learned, so its Creator synergy is a future benefit.

Beta notes for the GM

The author has corrected the Mage to 3 discipline points. Emilia has Occult 2 (Magic) and Academia 1 (Chemistry); the extra Medicine 1 (Triage) entry has been removed. The laptop's three rituals are item access, not extra purchased abilities.

Quick reference

Build a pool from an attribute plus a discipline; double it for a matching specialization. Each 6 is a success. Opposing successes cancel. Spend 1 Mana to reroll up to two dice. Damage reduces attributes. At 0 in an attribute, you go down and need treatment. Use the full rulebook for armor, damage types and ability timing.

Background & playing advice

Emilia Olsson | Mage

She found proof that magic works. The price was higher than she could have imagined.

Background

Emilia had been fascinated by the supernatural since childhood, collecting crystals and books about white magic. Everything changed when she found an untitled book in a second-hand shop. Its spells were real: if she followed the instructions exactly, they worked.

But a ritual she did not fully understand opened a portal to Hell. A demon emerged, seized her, and began draining something from her. Suddenly, it heard something following it through the portal and fled into the night. Emilia lost consciousness.

She awoke in GDA custody and received an ultimatum: work for them or never see daylight again.

Goal

Find the demon and reclaim whatever it stole from her.

Weakness

Emilia is convinced that she knows best, even in situations she does not understand.

Playing advice

Be the occult specialist. What you know about a phenomenon or creature can mean the difference between life and death.

Choose the right spell. Some creatures shrug off conventional weapons. Your magic can give the group a way to fight them.

Solve problems through creation. With the right specialization, you can create tools the group lacks.
